

NEIGHBORHOOD SUPPORT PETITION

Use this petition to gauge support of neighborhood residents for the project. Make sure that those signing clearly understand the details of your project. Be sure to include owners and renters.

Project Name:

Project Description:

The Collins Street Pond Improvement Project creates an 8-ft wide community walking trail around an existing, but unimproved, community pond. The entire project, when complete, will consist of a brushed-finished concrete walking/running path, a pedestrian bridge, benches, trash cans, dog waste stations, and includes trees, plants, and ornamental grasses that are suitable for the North Texas climate. The walking trail connects neighborhood streets to the community pond and allows for safe, navigable access to the area.

Phase 1 of the Collins Pond improvement will be completed in early 2019 with a segment of the eight foot wide walkway surrounding the pond completed with connections to three cul-de-sacs adjoining the pond. Phase 2 of this project, which this application applies to, connects two segments of the walkway with a bridge.

The following residents of the Neighborhood fully understand the aforementioned project and support the pursuit of a Neighborhood Matching Grant to implement it.
